PrimeGene Recombinant Murine Macrophage Inflammatory Protein-3α/CCL20 (rMuMIP-3a/CCL20)

PrimeGene Technical Data Sheet

Source:Escherichia coli.Molecular Weight:Approximately 8.0 kDa, a single non-glycosylated polypeptide chain containing 70 amino acids.Quantity:5µg/20µg/1000µgAA Sequence:ASNYDCCLSY IQTPLPSRAI VGFTRQMADE ACDINAIIFH TKKRKSVCAD PKQNWVKRAV NLLSLRVKKMPurity:>96 % by SDS-PAGE and HPLC analyses.Biological Activity:Fully biologically active when compared to standard. The biologically active determined by a	Catalog Number:	224-20
Quantity: 5µg/20µg/1000µg AA Sequence: ASNYDCCLSY IQTPLPSRAI VGFTRQMADE ACDINAIIFH TKKRKSVCAD PKQNWVKRAV NLLSLRVKKM Purity: > 96 % by SDS-PAGE and HPLC analyses. Biological Activity: Fully biologically active when compared to standard. The biologically active determined by a	Source:	Escherichia coli.

concentration of 0.1-1.0 mg/ml. Stock solutions should be apportioned into working aliquots and		concentration of 0.1-1.0 mg/ml. Stock solutions should be apportioned into working aliquots and
stored at \leq -20 °C. Further dilutions should be made in appropriate buffered solutions.		
Shipping: The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature	Shipping:	
recommended below.		
Stability & Storage: Use a manual defrost freezer and avoid repeated freeze-thaw cycles.	Stability & Storage:	
• 12 months from date of receipt, -20 to -70 °C as supplied.		
• 1 month, 2 to 8 °C under sterile conditions after reconstitution.		
• 3 months, -20 to -70 °C under sterile conditions after reconstitution.		
Usage: This material is offered by Shanghai PrimeGene Bio-Tech for research, laboratory or further	Usage:	
evaluation purposes. NOT FOR HUMAN USE .		evaluation purposes. NOT FOR HUMAN USE.

Murine Macrophage Inflammatory Protein-3a/CCL20

CCL20, also named LARC (Liver and Activation-regulated Chemokine), is encoded by CCL20 located on chromosome 1 in mouse. The expression can be induced by LPS and some inflammatory cytokines, and it is at a high level in lymph nodes, PBL, fatal liver, fatal lung, appendix and so on. CCL20 has functions of chemotactic towards lymphocytes and dendritic cells. Additionally, it promotes the adhesion of memory CD4+ T cells and inhibits colony formation of bone marrow myeloid immature progenitors. CCL20 elicits it effects by binding with CCR6 receptor.
